WARREN'S

COUGH BALSAM

Has been found by experience, to be the Best Remedy for the various Diseases of the Lungs and Throat, such as

Diphtheria,

Asthma, Bronchitis, Consumption, Croup, Influenza, Pleurisy, Pneumonia or Inflammation of the Lungs, and Whooping Cough.

IN these complaints this Medicine has NO SUPERIOR, and while they will find it to be perfectly SAFE to administer to persons of all ages.

At all times of the year this Balsam is found useful, especially in the Autumn, Winter and Spring, and in the Colds and Coughs, which are neglected, Night Sweats, Pleurisy, &c., which may be CURED at once by a few doses of this invaluable remedy.

This Cough Balsam possesses the two-fold advantage of being a most *palatable* as *curative* and *acceptable* to the taste, as the worst cases of the diseases of the Throat, Lungs and Bronchia.

IN DIPTHERIA this Balsam has proved itself *unexpectedly efficacious*. When given at the first onset of the disease, it checks it at once, and in many cases is believed by those who have used it to have saved their lives.

In ASTHMA however violent and distressing, this Balsam gives prompt relief.

In BRONCHITIS and PNEUMONIA it relieves the irritation, causes the Cough, and promotes a favorable expectoration.

In CROUP it powers are almost magical. This insidious disease, coming literally "like a thief in the night," may be speedily and effectually arrested by a few small doses of this Balsam.

In WHOOPING COUGH it moderates the paroxysms, prevents the disease from assuming its severest and dangerous form, and shortens it course. Every family should keep it in the house, and thus avoid the dangerous delay occasioned by sending out for the medicine when needed for immediate use.

The *last* recommendation for a good medicine is found in its use. I the following certificate from one who has used it, does not give you confidence in it, try one bottle for yourself, and you will be convinced. It will cost you but twenty-five cents, and may save you as many dollars in time and doctors' bills.

Letter from Gen. Roberts.

FRIEND WARREN:—Allow me to thank you for the bountiful supply of Cough Balsam received by me from you, through Lieut. Boynton. Many a soldier in my Command as well as others, has experienced the beneficial effects of the same. We all pronounce the article sound—as does our Brigade Surgeon, Dr. Lyman, of Boston, to whom I presented a bottle.

[Evening Despatches to the Times.]

Late News from Vicksburg—Important from South Carolina—Deserters Sentenced to be Shot—Charleston paper Acknowledges the Attack—Later from Europe.

St. Louis, 4th.

Despatches from Cairo says during a very heavy wind Monday night, rebel gunboat Vicksburg broke from her mooring and floated down stream and was captured by Farragut's vessel.

Among Southern items we find the following—

The peace party of the South, headed by Henry S. Foote, Alex. Motseley, editor of the Richmond Whig, and others are about to introduce a resolution on the subject which will probably pass the lower House of Congress before the adjournment.

[Express Monroe, 1th

Yesterday Richmond despatches says Pensacola was fired by the Union soldiers, about the 24th ult., and most of the town destroyed. The soldiers are going to reinforce Gen. Banks.

(From the North Carolina Coast.) The enemy—federals—have landed in force on Seabrook's or John's Island. Their gun boats and several transports are lying off the island. Skirmishing has already taken place between our and the enemy's pickets. Our pickets are driven in and the enemy is advancing. Gen. Haygood has ordered all the women, children, and non-combatants to be removed from Adam's Run, which is 20 miles from Seabrook's Island.

Headquarters Army of Potomac, April 6th

The snow storm of last night was very severe and the roads are in a terrible condition.

New York, 5th

The Tribune's Washington despatch says our relations with Great Britain are considered by those conversant with them as extremely delicate. The correspondence between Lord Russell and Minister Adams in relation to the fitting out and sailing of the pirate Alabama, contained in the English "Blue Book," but not yet published in this country, and the correspondence still going on touching the coast rovers and equipment in British waters of other piratical craft, have been conducted on the part of John Bull in a tone which is unfriendly, if not menacing and provocative of war.

Russell plants himself on the strict letter of the Statute applicable to the case, and refers our Government to the Statute, and in effect refuses to take steps to remedy the grievance complained of.

The matter has recently been seriously discussed in the Cabinet.

It is thought in some quarters that with the capture of Charleston apprehensions on this score may be diminished.

The Ministers here of the principal foreign powers are believed to be of the opinion that its capture is impossible.

The Herald's Washington despatch says a report has reached here by way of Fredericksburg, derived from rebel sources, that Charleston was bombarded by our fleet and attacked by our land forces last Thursday, and is now in possession of the federals, under Gen. Hunter and Admiral Dupont. The report is fully credited by prominent officers of the Government, who were in possession of facts in reference to the contemplated attack upon Charleston, which it is not yet prudent to divulge.

It is certain, however, that those who possess this information are confident that our soldiers and sailors will celebrate the second anniversary of the fall of Fort Sumter in the captured city of Charleston.

The restrictions upon the publication in the southern papers of any advance news are so stringent that it is not expected to find much information in reference to the capture of Charleston until the disaster can be no longer concealed, but the reports which have arrived are definite and positive and are believed by those who have the best right to know what foundation there is for them.

The Times' Washington despatch says the city is nervous to-night over news derived from rebel sources that Charleston has fallen, that our attack commenced on Friday and was overwhelmingly successful.

A flag of truce came to Falmouth this morning. The newspapers smuggled under it made no mention of the fall of Charleston or of its salvation.

The Herald's despatch says information has been received contradicting the reported preparations of the rebels to evacuate Richmond.

These reports were based upon the movements of troops and materials sent from Richmond to strengthen the defences at other points of the Confederacy. It is believed, however, that they are erecting formidable defences at Chattanooga, Tenn., as a place for a last grand rally in case of being compelled to retire from the borders.

The Times' despatch states that General Lee, with a considerable force, is in the Shenandoah Valley. Prisoners captured by our troops have been found with passes bearing his signature.

Fitz Hugh Lee is in neighborhood of Culpeper, with his cavalry brigade.

The President's proclamation has caused the return of upwards of 1500 deserters daily to their regiments. Thus far no impediments have been thrown in the way of enforcing the proclamation. Notwithstanding the time laid down in the proclamation for the return of deserters has expired, the Government is disposed to deal leniently with all who return to their regiments.

New York, 6th

The prize steamer Aries, in charge of Master Dedrea, arrived this morning from Port Royal, bound to Boston, put in short of coal. She was captured on the 28th ult., in Ball's Bay, 80 miles north of Charleston, by the U. S. steamer Stella.

New York, 6th

The Times' despatch says the Committee on the Conduct of the War urged on the President yesterday the issuance of letters of marque. The subject was the occasion of a protracted Cabinet meeting afterwards, in which two Department heads were as positively opposed to the measure as others were in favor of it. The conclusion was delayed.

A notorious accessionist, named Williamson, formerly an Attorney General of Maryland, was arrested yesterday by order of Judge Advocate Turner in New York, while on his way from Canada to Richmond. On searching his baggage a large number of letters were found, showing conclusively that he was in correspondence with the rebels and involving prominent parties in New York and Baltimore. He was sent to Fort Lafayette.

Fortress Monroe, 5th

Propeller Virginia, Captain Snyder, arrived this forenoon from New York. The Captain reports that on the 3d inst., at 10 a. m., passed a black steamer with three masts and a smoke stack near the after mast. She was aground inside the breakers at the northwest end of Cedar Island, 40 miles to west of Cape Henry. She looked like the Diamond State. The wind was blowing heavily from the northeast at the time.

Steamer Express from City Point, has arrived with 286 prisoners of war, 40 citizen prisoners, and 14 released and exchanged Federal officers captured at Hunterville, Tenn., Dec 7, 1862.

The Richmond Despatch of April 3d says:

We have reliable information that the portion of Pensacola surrounding St Mary's Hall, comprising about 60 buildings, was burnt on the 23d ult. The town was burnt by Union troops who have been sent to reinforce Banks.

The Confederate States steamer Natchez which was burnt at Castle Mare on the Yazoo River, had 1300 bales of cotton on board. She was one of the finest steamers in the Confederacy. The loss is heavy.

Cincinnati, 6th

A special despatch from Cairo to the Gazette says—

As the gunboat St. Clair was passing Palmyra, 25 miles above Fort Donelson, conveying transports, she was fired into by the rebels under Van Dorn. The third shot struck the steam supply pipe of the boat, rendering her unmanageable. She was towed to Cairo. Two or three men were wounded.

All is quiet in the department of General Rosecrans.

Francis Carr of the U. S. Infantry, Jenness of the 5th Kentucky volunteers, and Jas. Walsh of the 4th Indiana regiment, have been sentenced to be shot, the former for mutiny, and the two latter for desertion.

New York, 6th

A despatch received from Fortress Monroe states that Charleston papers have been received there. They acknowledge that the attack of the Federal army and navy upon Charleston had been commenced, but contain nothing indicating whether the movements of our forces have met with a success or a repulse. It is fair to infer that if the latter was the case they would have announced it in the most glowing terms known to the rebel vocabulary.

It is generally believed in official quarters that at least no reverse has been sustained by our troops or our fleet, and there is the best of reason to believe that the loyal North will soon be electrified by the gratifying announcement of the Federal capture and occupation of the spot where Charleston once was located.

New York, 6th

The steamship Africa from Boston, arrived here at 10 o'clock, 22d.

Cotton opens to-day steady with a fair demand. Political news unimportant.

Lagowski has been conveyed to the Fortress of Cracow.

The latest Poland despatches indicate continued Russian successes.

London, 23d. The Daily News states that the Greek Minister had been recalled and the legation in London had been abolished.

The Times' city article says the demand for money at the Bank of England and in the open market on Saturday, was very active owing to the large amount locked up as deposits for the rebel loan, which closes at ⅜ a ⅝ premium—the aggregate of subscription at London, Liverpool, Paris, Frankfort and Amsterdam, are almost fifteen millions.

The Times considers the Polish struggle as virtually ended, but thinks the allied powers are justified in requiring that Poland shall have what is guaranteed by the treaty of Vienna.

The Morning Post understands that the Vienna Cabinet has resolved to place Langiewicz on parole in some Austrian town.

A large body of regulars who have crossed into Austria are under surveillance, but are supplied with rations by Austria.

The Paris correspondent of the Daily News says it is rumored that besides an amnesty the Czar telegraphed to Napoleon that he will give Poland her autonomy and a liberal constitution.

The Conscription Law.

AN ACT for enrolling and calling out the national forces, and for other purposes.

Whereas there now exist in the United States an insurrection and rebellion against the authority thereof, and it is, under the Constitution of the United States, the duty of Government to suppress insurrection and rebellion, to guarantee to each State a republican form of government, and to preserve the public tranquility, and whereas, for these high purposes a military force is indispensable, to raise and support which all persons ought willingly to contribute, and whereas no service can be more praiseworthy and honorable than that which is rendered for the maintenance of the Constitution and Union, and the consequent preservation of free government. Therefore—

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that all able-bodied male citizens of the United States, and persons of foreign birth who shall have declared on oath their intention to become citizens under and in pursuance of the laws thereof, between the ages of twenty and forty-five years, except as hereinafter excepted, are hereby declared to constitute the national forces, and shall be liable to perform military duty in the service of the United States when called out by the President for that purpose.

Sec. 2. And be it further enacted, That the following persons be and they are hereby excepted and exempt from the provisions of this act, and shall not be liable to military duty under the same, to wit: Such as are rejected as physically or mentally unfit for the service, also, first, the Vice President of the United States, the judges of the various courts of the United States, the heads of the various executive departments of the Government, and the Governors of the several States. Second, the only son liable to military duty of a widow dependent upon his labor for support. Third, the only son of aged or infirm parents dependent upon his labor for support. Fourth, where there are two or more sons of aged or infirm parents subject to draft the father, or if he be dead, the mother may elect which son shall be exempt. Fifth, the only brother of children not twelve years old, having neither father nor mother dependent upon his labor for support. Sixth, the father of motherless children under twelve years of age dependent upon his labor for support. Seventh, where there are a father and sons in the same family and household, and two of them are in the military service of the United States as non-commissioned officers, musicians, or privates, the residue of such family and household not exceeding two shall be exempt. Provided, however, That no person who has been convicted of any felony shall be enrolled or permitted to serve in said forces.

Sec. 3. And be it further enacted, That the national forces of the United States not now in the military service, enrolled under this act, shall be divided into two classes: the first of which shall comprise all persons subject to do military duty between the ages of twenty and thirty-five years, and all unmarried persons subject to do military duty above the age of thirty-five and under the age of forty-five; the second class shall comprise all other persons subject to do military duty, and they shall not, in any district, be called into the service of the United States until those of the first class shall have been called.

Sec. 4. And be it further enacted, That for greater convenience in enrolling, calling out, and organizing the national forces, and for the arrest of deserters and spies of the enemy, the United States shall be divided into districts, of which the District of Columbia shall constitute one; each Territory of the United States shall constitute one or more, as the President shall direct, and each congressional district of the respective States, as fixed by a law of the State next preceding the enrolment, shall constitute one. Provided, that in States which have not by their laws been divided into two or more congressional districts, the President of the United States shall divide the same into so many enrolment districts as he may deem fit and convenient.

Sec. 5. And be it further enacted, That for each of said districts there shall be appointed by the President a provost marshal, with the rank, pay, and emoluments of a captain of cavalry, or an officer of said rank shall be detailed by the President, who shall be under the direction and subject to the orders of a provost marshal general, appointed or detailed by the President of the United States, whose office shall be at the seat of government, forming a separate bureau of the War Department and whose rank, pay, and emoluments shall be those of a colonel of cavalry.

Sec. 6. And be it further enacted, That it shall be the duty of the provost marshals to arrest all deserters, whether regulars, volunteers, militiamen, or persons called into the service under this or any other act of Congress, wherever they may be found, and to send them to the nearest military commander or military post, to detect, arrest, and confine spies of the enemy, who shall, without unreasonable delay, be delivered to the custody of the general commanding the department in which they may be arrested, to be tried as soon as the exigencies of the service permit; to obey all lawful orders and regulations of the provost marshal general, and such as may be prescribed by law, concerning the enrolment and calling into service of the national forces.

Sec. 8. And be it further enacted, That in each of said districts there shall be a board of enrolment, to be composed of the provost marshal, as president, and two other persons, to be appointed by the President of the United States, one of whom shall be a licensed and practicing physician and surgeon.

Sec. 9. And be it further enacted, That it shall be the duty of the said board to divide the district into sub-districts of convenient size, if they shall deem it necessary, not exceeding two without the direction of the Secretary of War, and to appoint, on or before the tenth day of March next, and in each alternate year thereafter, an enrolling officer for each sub-district and to furnish him with proper blanks and instructions, and he shall immediately proceed to enrol all persons subject to military duty, noting their respective places of residence, ages on the first day of July following, and their occupation, and shall, on or before the first day of April, report the same to the board of enrolment, to be consolidated into one list, a copy of which shall be transmitted to the provost marshal general on or before the first day of May succeeding the enrolment. Provided, nevertheless, That if from any cause, the duties prescribed by this section cannot be performed within the time specified, then the same shall be performed as soon thereafter as practicable.

Sec. 10. And be it further enacted, That the enrolment of each class shall be made separately, and shall only embrace those whose ages shall be on the first day of July thereafter between twenty and forty-five years.

Sec. 11. And be it further enacted, That all persons thus enrolled shall be subject, for two years after the first day of July succeeding the enrollment, to be called into the military service of the United States, and to continue in service during the present rebellion, not, however, exceeding the term of three years, and when called into service shall be placed on the same footing, in all respects, as volunteers for three years, or during the war, including advance pay and bounty as now provided by law.

Sec. 12. And be it further enacted, That whenever it may be necessary to call out the national forces for military service, the President is hereby authorized to assign to each district the number of men to be furnished by said district, and thereupon the enrolling board shall, under the direction of the President, make a draft of the required number, and fifty per cent in addition, and shall make an exact and complete roll of the names of the persons so drawn, and of the order in which they were drawn, so that the first drawn may stand first upon the said roll, and the second may stand second, and so on. And the person so drawn shall be notified of the same within ten days thereafter, by a written or printed notice, to be served personally or by leaving a copy at the last place of residence, requiring them to appear at a designated rendezvous to report for duty. In assigning to the districts the number of men to be furnished therefrom, the President shall take into consideration the number of volunteers and militia furnished by said from the several States in which said districts are situated, and the period of their service since the commencement of the present rebellion, and shall so make said assignment as to equalize the numbers among the districts of the several States, considering and allowing for the numbers already furnished as aforesaid, and the time of their service.

Sec. 13. And be it further enacted, That any person drafted and notified to appear as aforesaid, may, on or before the day fixed for his appearance, furnish an acceptable substitute to take his place in the draft, or he may pay to such person as the Secretary of War may authorize to receive it, such sum, not exceeding three hundred dollars, as the Secretary may determine, for the procuration of such substitute, (which sum shall be fixed at a uniform rate) by (which sum shall be fixed at a uniform rate) by a general order made at the time of ordering a draft for any State or Territory; and thereupon such person so furnishing the substitute, or paying the money, shall be discharged from further liability under that draft. And any person failing to report after due service of notice,

as herein prescribed, or who shall furnishing a substitute, or paying the required sum therefor, shall be deemed a deserter, and shall be arrested by the provost marshal and sent to the nearest military post for trial by court martial. Unless, upon proper showing therein, he is not liable to do military duty, the board aforesaid shall receive him from the draft.

Sec 14 And be it further enacted, That all drafted persons shall, on arriving at the rendezvous, be carefully inspected by the surgeon of the board, who shall duly report to the board the physical condition of each one; and all persons drafted and claiming exemption from military duty by reason of disability, or any other cause, shall present their claims to the board for its decision, which decision shall be final.

Sec 15 And be it further enacted, That any surgeon charged with the duty of such inspection who shall receive from any person a pecuniary or any money or other valuable thing, or agree, directly or indirectly, to receive the same at his own or another's use for making an imperfect inspection or a false or incorrect report, or who shall wilfully neglect to make a faithful inspection and true report, shall be tried by a court-martial, and, on conviction thereof, be punished by fine not exceeding five hundred dollars nor less than two hundred, and be imprisoned at the discretion of the court, and be cashiered and dismissed from the service.

Sec. 16 And be it further enacted, That as soon as the required number of able-bodied men liable to do military duty shall be obtained from the list of those drafted, the remainder shall be discharged. And all drafted persons reporting at the place of rendezvous shall be allowed travelling pay from their places of residence, and all persons discharged at the place of rendezvous shall be allowed travelling pay to their places of residence; and all expenses connected with the enrolment and draft, including subsistence while at the rendezvous, shall be paid from the appropriation for enrolling and drafting, under such regulations as the President of the United States shall prescribe; and all expenses connected with the arrest and return of deserters to their regiments, or such other duties as the provost marshals shall be called upon to perform, shall be paid from the appropriation for arresting deserters, under such regulations as the President of the United States shall prescribe: *Provided*, The provost marshals shall in no case receive commutation for transportation or for fuel and quarters but only for forage, when not furnished by the Government, together with actual expenses of postage, stationery, and clerk hire authorized by the provost marshal general.

Sec 17 And be it further enacted, That any person duly enrolled and drafted securing by the provisions of this act who shall furnish an acceptable substitute, shall thereupon receive from the board of enrolment a certificate of discharge from such draft, which shall exempt him from military duty during the time for which he was drafted; and such substitute shall be entitled to the same pay and all the bounties provided by law as if he had been originally drafted into the service of the United States.

Sec 18 And be it further enacted, That such of the volunteers and militia now in the service of the United States as may re-enlist to serve one year, unless sooner discharged, after the expiration of their present term of service, shall be entitled to a bounty of fifty dollars to be paid by which to be paid upon such re-enlistment, and the balance at the expiration of the term of re-enlistment. And such as may re-enlist to serve for two years, unless sooner discharged, after the expiration of their present term of enlistment, shall receive, upon such re-enlistment, twenty-five dollars of the one hundred dollars bounty for enlistment provided by the fifth section of the act approved twenty-second of July, eighteen hundred and sixty one, entitled "An act to authorize the employment of volunteers to aid in enforcing the laws and protecting public property."

Sec 19 And be it further enacted, That whenever a regiment of volunteers of the same arm, from the same State, is reduced to one-half the maximum number prescribed by law, the President may direct the consolidation of the companies of such regiment: Provided, That no company so formed shall exceed the maximum number prescribed by law. When such consolidation is made, the regimental officers shall be reduced in proportion to the reduction in the number of companies.

Sec. 20 And be it further enacted, That whenever a regiment is reduced below the minimum number allowed by law, no officers shall be appointed in such regiment beyond those necessary for the command of such reduced number.

Sec 21 And be it further enacted, That so much of the 5th section of the act approved seventeenth July, eighteen hundred and sixty-two, entitled "An act to amend an act to raise forth the militia to execute the laws of the Union," and so forth, as requires the approval of the President to carry into execution the sentence of a court-martial, be and the same is hereby repealed, so far as relates to carrying into effect on the sentence of any court-martial against any person convicted as a spy or deserter, or of mutiny or murder, and hereafter sentences in punishment of such offences may be carried into execution upon the approval of the commanding general in the field.

Sec 22 And be it further enacted, That courts martial shall have power to sentence officers who shall absent themselves from their commands without leave, to be cashiered from the ranks to serve three years or during the war.

Sec 23 And be it further enacted, That the clothes, arms, military outfits, and accoutrements furnished by the United States to any soldier, shall not be sold, bartered, exchanged, pledged, loaned or given away; and no person not a soldier, or duly authorized officer of the United States, who has possession of any such clothes, arms, military outfits or accoutrements, furnished as aforesaid, and which have been the subject of any such said barter, exchange, pledge, loan, or gift, shall have any right, title, or interest therein, but the same may be seized and taken wherever found by any officer of the United States, provost or military, and shall thereupon be delivered to any quartermaster or other officer authorized to receive the same, and the possession of any such clothes, arms, military outfits or accoutrements, by any person not a soldier or officer of the United States shall be prima facie evidence of such a sale, barter, exchange, pledge, loan, or gift, as aforesaid.

Sec. 24. And be it further enacted, That any person not subject to the rules and articles of war, who shall procure or entice, or assist in procuring or enticing, a soldier in the service of the United States to desert, or who shall harbor, conceal or give employment to a deserter, or carry him away, or aid in carrying him away, knowing him to be such, or who shall refuse to deliver up to his commanding officer, or to any provost marshal, or any officer authorized to receive deserters, any deserter from the military or naval service of the United States, when demanded, shall be liable to a fine not exceeding three hundred dollars, and to imprisonment not exceeding two years, or by both of said punishments.

Sec 25. And be it further enacted, That, immediately after the passage of this act, the President shall issue his proclamation declaring that all soldiers now absent from their regiments without leave may return within a time specified to such place or places as he may designate in his proclamation, and be restored to their respective regiments without punishment, except the forfeiture of their pay and allowances during their absence; and all deserters who shall not return within the time so specified by the President, shall, upon being arrested, be punished as the law provides.

Sec. 27 And be it further enacted, That depositions of witnesses residing beyond the limits of the State, territory, or district in which military courts shall be required to sit, may be taken in such manner and by such officer as the court by either party, and read in evidence provided the same shall be taken upon reasonable notice to the opposite party, and duly authenticated.

Sec 28 And be it further enacted, That the judge advocate shall have power to appoint a reporter, whose duty it shall be to record the proceedings of and testimony taken before military courts instead of the judge advocate, and such reporter may take down such proceedings and testimony in the first instance in short hand. The reporter shall be sworn or affirmed to faithfully perform his duty before entering upon it.

Sec 29 And be it further enacted, That the courts shall, for reasonable cause, grant a continuance to either party for such time and as often as shall appear to be just. Provided, That if the prisoner be in close confinement, the trial shall not be delayed for a period longer than sixty days.

Sec 31 And be it further enacted, That any officer absent from duty with leave, except for sickness or wounds, shall, during his absence, receive half of the pay and allowances prescribed by law, and no more; and any officer absent without leave shall, in addition to the penalties prescribed by law or court martial, forfeit all pay or allowances during such absence.

Sec 32 And be it further enacted, That the commanders of regiments and of batteries in the field are hereby authorized and empowered to grant furloughs, for a period not exceeding thirty days at any one time to five per centum of the non-commissioned officers and privates, for good conduct in the line of duty and subject to the approval of the commander of the forces of whom such non-commissioned officers and privates form a part.

Sec 33 And be it further enacted, That the President of the United States is hereby authorized and empowered, during the present rebellion, to call forth the national forces by draft in the manner provided for in this act.

☞ A letter from Charleston in the Mobile News says that blockade runners into the harbor of that former place must make their attempts during daylight, as no more of them will be allowed to pass Fort Sumter after dark. The same communication says the harbor besides is a burning mass, and when a vessel is furnished with a pilot who knows their position, it is sure to be destroyed. Much boasting is made of the impregnability of Sumter, Moultrie, and Battery Bee, and the writer asserts that no float ag fighting ram dreams that he is unharmed, and that even if the rams run they could escape destruction; the batteries of which the harbor could be filled with terrible effect.

In a recent letter of a gentleman in this country, John Bright remarks:

"The difficulties of your President are enormous, and I foresee no light in them. I only hope that God may give your people strength and virtue to gain the great cause that is now in your keeping. It is freedom or slavery over all your continent. The English people are true to their cause and faith, and they wish freedom to win, and your noble Union to be restored.

A Democrats Local Town. Not very far from Central New Jersey, and two young lawyers, Andy Brown and Tom Hall. Met going home of dropping in at Mr. Timith's of an evening and spending an hour or two with his only daughter Mary. One evening, when Brown and Miss Mary had discussed almost every topic, Brown (Andrew) and in his sweetest tones, struck on the subject:

"Do you think, Mary, you could leave your father and mother, your pleasant home here, with all its ease and comforts, and go to the far West with a young lawyer, who has but little besides his profession to depend upon, and with him and pass a cozy home, while it might be your joint duty to beautify and make pleasant like this?"

Dropping her head softly on her shoulder, she answered,

"I think I could, Archy."

"Well," said he, in a changed tone, and straightening himself up, "there's Tom Hall is going West and wants to get a wife I'll just mention it to him."

Admiral Farragut's Proceedings after Passing Port Hudson. A telegraphic dispatch from Cairo to the Cincinnati Gazette, of date 31st ult., says that, in the passage of the Port Hudson batteries, according to the account of a party who was on board the Hartford until she arrived at Vicksburg, only three men were killed and two wounded. No serious damage was done to that vessel or to the Albatross. Of Admiral Farragut's subsequent movements the dispatch says:

"At two o'clock on the morning of the 15th March the Hartford and the Albatross steamed up as far as the mouth of Red river, and there ascertained that four or five rebel rams had just passed up, the smoke from whose chimneys could not be seen in the distance, also that fifty of the crew of the Mississippi had been taken prisoners.

Still passing up, at Natchez the steamers destroyed the telegraph lines by Admiral Farragut's orders. This was on the 18th. On Thursday, the 19th, they passed Grand Gulf, and were fired upon by a battery of 15 field pieces. The boats were uninjured. Three men were killed and eight wounded. The loss on the rebel side was not learned.

On the same day Admiral Farragut distinctly saw, as he passed, the wreck of the Indianola, shattered as though it had been blown up, lying near the shore.

On the 20th the two steamers passed Warrenton, shelling the batteries vigorously, but no enemy was seen and no reply made to the cannonade. The same day the Admiral reported to Rear Admiral D D Porter off Vicksburg. On the 22d he received coal from above, floated down in barges, as before related.

On the 23d the Albatross made a reconnoissance to Warrenton and destroyed an unfinished ironclad battery which the rebels had dismounted, under a slight opposition from the rebels and a few field pieces. On the evening day the Hartford paid the same place a visit, and found about three thousand riflemen intrenched, who were quickly scattered by one shot and shell. This ends the adventures of the two steamers, which were lying at the foot of the canal when information left."

The Future of Maryland.

Prince George's County, Maryland, is immediately contiguous to the Federal Metropolis, and has never been under the rebel flag. But it is a slaveholding County, having in 1860 12,479 slaves to 10,868 free persons, and, though formerly a strong Whig County, it gave Breckinridge a majority over both Bell and Douglas, and in 1861 it gave 846 Union to 728 Secession votes—many of the Secessionists being absent in the rebel armies, and many others not choosing to vote. There can be no doubt that it is essentially disloyal to-day, as is indicated by the following paragraph from a late rebel organ:

"Passport to Gen. Lee.—We have seen the beautiful gold spurs sent to Gen. Robert E. Lee by some of his friends and admirers in Prince George's County, Maryland. They were very neatly ornamented and tolerably inscribed. If of the value of chivalry, Gen. Lee has won his spurs as a true knight, and so the ladies and gentlemen of Prince George's have emphatically pronounced, and bestowed them accordingly. Long may he wear them!"—*Richmond Sentinel.*

—The Delegates of Maryland are at length agreeing to the fact that, with rare exceptions, Treason is rampant wherever slavery is strong, and that their affinity is vital and indestructible. There are loyal slaveholders in Maryland; but the champions and devotees of slavery are sad and cannot be made loyal; and whoever seeks and wants to uphold Slavery in Maryland is at heart with Jeff Davis, and ought to be with him in person. They are resolving, therefore, to strike at the root of the Rebellion, and to make the coming contest distinctly on the issue of Union and Freedom against Slavery and Treason. The reason for this step is well stated in the response by Judge Blair, Postmaster-General, to an inquiring friend, as follows:

"At Blair Mansion, Greensborough, Caroline County, Md.:

Dear Sir:—I have yours of the 26th instant, asking whether it would not be better for us not to make the question of Emancipation in our approaching election.

If, as you assume, it was in our power to make or not to make the question, it might be profitable to debate with ourselves whether we would or would not make it. But when, in point of fact, it is not for us to say whether the question shall or shall not be made, it seems to me to be idle to discuss the policy of making it. The question is upon us, and all that we can do is to say on which side we shall range ourselves. To be debating whether it is better or worse for us to have it, is like debating whether the rain that is falling is needed.

I know, indeed, that too many of our friends are of a dream of the Slavery question, or rather are so terrified at the Secession howl of 'Abolitionists,' that they persuade themselves that they can dodge the issue, and can even join in the howl, without helping the Secessionists, but the war now drenching the land in blood, which is due to that quality, should at least teach us that to cower before traitors and adopt their slang is inconsistent alike with patriotism and self-respect.

No one can doubt that, if the men of the South who dissent from Mr Calhoun's monstrous doctrines had stood up boldly against them, we should have extinguished them without violence. But, instead of making common cause against the nullifier, they joined in his war cry against the North, which utterly drowned the feeble notes they attempted to utter for the Union.

Such have been the disastrous results of attempting to dodge the Slavery question, which Mr Calhoun, as we find by his printed letters, since published, forced on the country. 'Force the issue,' he wrote Mr Percy Walker, and accordingly it was and is forced upon us. Let us meet it like men.

Yours truly, M Blair.

Washington, March 27 1863.

If the Unionists of Maryland do, indeed, "meet it like men," this issue will assure their success. For no one can doubt that, whatever the issue of the tremendous struggle inaugurated by slaveholding treason, Maryland is to remain in the Union, and is of course to become a Free State. Timidity and weakness may delay the glorious consummation, but cannot avert it; while energy and daring will secure an immediate and conclusive triumph. We trust the counsels of wisdom and courage will prevail.—*Tribune.*

reach *directly* the affected parts, and gives almost instant relief. In Bronchitis, Asthma, and Catarrh they are beneficial. The good effects resulting from the use of the Troches, and their extended use, has caused them to be counterfeited. Be sure to guard against worthless imitations. Obtain only the genuine *Brown's Bronchial Troches*, which have proved their efficacy by a test of many years. Public Speakers and Singers should use the Troches. Military Officers and Soldiers who overtax the voice, and are exposed to sudden changes, should have them. Sold every where at 25 cents per box.

BANGOR BREWERY,

No. 103 Broad Street.

THE subscribers has the pleasure of informing the citizens of Bangor and vicinity that he has, at a very large outlay, established a Brewery for the manufacture of the best brands of Ale. My head brewer, Mr. Williamson, has no superior in the country, in skill and experience, acquired by over fifteen years service in the largest breweries of London, New York and Boston.

The water used is from the famous Taylor spring and my malt and hops are of the best quality, thus securing the richest flavors and the finest purity. Believing the public will appreciate this fine enterprise, I shall spare no pains to furnish an article which shall merit their entire approbation.

I shall also manufacture a favorable article of Light Ale, specially for family use. My intention is to supply the trade but for the present I shall accommodate the public in such quantities as may be desired.

My Ale is now on draft at the principal hotels and retail shops in this city.

A Remarkable Cure in Bangor.

I, W H FRITCHARD, do certify that my wife Esther S, has had Weak Eyes from childhood caused by cataract One year since a lump appeared on the ball of her eye It increased to the size of a large pea Becoming somewhat alarmed about the progress it was making I took my wife Mrs M G BROWN at the Exchange She told me she could remove it, and further strengthen her eyes Mrs B applied her medicine at seven o'clock in the evening, and at nine o'clock the lump was gone We could see no more of it Mrs wife can now see people walking on the other side of the street, which she could never do before She has always had headache when riding in a carriage, Yesterday when riding in a chaise, she had no return of headache My own eyes were treated two or three times by Mrs Brown I find them much strengthened W H FRITCHARD

This Preparation by its splendid results has shown the great necessity of a true *Nervous and Spasmodic Remedy* which goes to its work on all such complaints, completely relieving the pains, and leaving no stain of debility behind

As most complaints of this nature proceed from inward causes, they are reached only through the stomach and in most of these, time and money is wasted by the use of Liniments and Lotions

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U S Patent Office Washington under the Act of 1836.

76 State Street, opposite Kilby street

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States also, in Great Britain France and other foreign countries to reissue, Specifications Reports, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with dispatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded in Washington

The agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the Patentability of inventions, unsurpassed by if not unequalled by any other which can be offered them elsewhere The testimonials below given prove that *success is more successful at the Patent Office* than the subscribers, and as *success is the best proof of all things and ability*, he would add that he has also the best reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents

These, besides his extensive library of foreign and mechanical works and full copies of patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining Patents

All necessity of journey to Washington to procure a patent and the usual great delay there are here saved Inventors

TESTIMONIALS

I regard Mr Eddy as one of the most *reputable* and *successful* practitioners with whom I have had official intercourse CHARLES MASON

Commissioner of Patents

I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE
Late Commissioner of Patents

Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending such unquestionable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patentsas they may be sure of having the most faithful attent on bestowed on their cases, and at very reasonable charges

JOHN TAGGART

During eight months the subscriber in course of his large practice made on twelve rejected applications *SIX TEEN APPEALS, EVERY ONE* of which was decided in his favor by the Commissioner of Patents. R H EDDY
